**6A70.0 Single episode depressive disorder, mild**

Foundation URI: <http://id.who.int/icd/entity/1922675618>

Code: 6A70.0

**Description**

Single episode depressive disorder, mild, is diagnosed when the definitional requirements of a Depressive episode are met and the episode is of mild severity. A depressive episode is characterised by a period of depressed mood or diminished interest in activities occurring most of the day, nearly every day during a period lasting at least two weeks accompanied by other symptoms such as difficulty concentrating, feelings of worthlessness or excessive or inappropriate guilt, hopelessness, recurrent thoughts of death or suicide, changes in appetite or sleep, psychomotor agitation or retardation, and reduced energy or fatigue. In a mild depressive episode, the individual is usually distressed by the symptoms and has some difficulty in continuing to function in one or more domains (personal, family, social, educational, occupational, or other important domains). There are no delusions or hallucinations during the episode.

## 6D10 Personality disorder

Foundation URI: <http://id.who.int/icd/entity/941859884>

Code: 6D10 ✓ Select

**Description**

Personality disorder is characterised by problems in functioning of aspects of the self (e.g., identity, self-worth, accuracy of self-view, self-direction), and/or interpersonal dysfunction (e.g., ability to develop and maintain close and mutually satisfying relationships, ability to understand others' perspectives and to manage conflict in relationships) that have persisted over an extended period of time (e.g., 2 years or more). The disturbance is manifest in patterns of cognition, emotional experience, emotional expression, and behaviour that are maladaptive (e.g., inflexible or poorly regulated) and is manifest across a range of personal and social situations (i.e., is not limited to specific relationships or social roles). The patterns of behaviour characterizing the disturbance are not developmentally appropriate and cannot be explained primarily by social or cultural factors, including socio-political conflict. The disturbance is associated with substantial distress or significant impairment in personal, family, social, educational, occupational or other important areas of functioning.

# Oppdrags- og tildelingsbrev 2026

22	Kodeverk, terminologi og standarder – overgang til ICD-11	De regionale helseforetakene skal kartlegge konsekvenser av overgang til ICD-11 som diagnosekodesystem på de områdene man i dag benytter ICD-10 kodesystem. Kartleggingen skal følge Helsedirektoratets anbefalte plan for overgang til ICD-11.
----	---	---

TB2026-11	Avd. HOD: DIG	Overgang til ICD-11 for helseregistrene
Folkehelseinstituttet skal kartlegge konsekvenser av overgang til ICD-11 for helseregistrene med utgangspunkt i Helsedirektoratets oppgraderingsstrategi når denne foreligger.		
Frist: Settes i dialog med Folkehelseinstituttet		

TB2026-38	Avd. HOD: DIG	Informasjonsforvaltning Kodeverk og terminologi
Helsedirektoratet skal, som en del av arbeidet med informasjonsforvaltning, legge til rette for større forutsigbarhet for sektoren. Helsedirektoratet skal		
1. fortsette arbeidet med overgangen til ICD-11, dette inkluderer arbeid med å oversette og tilgjengeliggjøre kodeverket, samt fastsette og følge opp oppgraderingsstrategi slik at det gir forutsigbarhet og effektiv bruk av sektorens ressurser		

# Arbeidspakker 2026

- 1 Kommunikasjon og endringsledelse
- 2 Oversettelse av ICD-11
- 3 Tilgjengeliggjøre ICD-11
- 4 Oppgraderingsstrategi og overordnet nasjonal tidsplan for ICD-11
- 5 ICD-11-SNOMED - oppgraderingssammenheng

# Oppgraderingsstrategi og innspillsrunde

 HelseRektoratet

TB2026-38 pkt 1:  
Informasjonsforvaltning Kodeverk og  
terminologi

Oppgraderingsstrategi for ICD-11 (v.0.8)

# Sentrale problemstillinger knyttet til overgangen fra ICD-10 til ICD-11

## OPPGRADERINGSFORM

Beskriver hvordan overgangen fra ICD-10 til ICD-11 kan gjennomføres organisatorisk og teknisk i helsesektoren.

## KODEPRAKSIS FOR ICD-11

Beskriver hvilke krav som skal stilles til hvordan helsepersonell skal kode med ICD-11 på oppgraderingstidspunktet.

## KONVERTERING AV EKSISTERENDE ICD-10-KODER

Omhandler pasienter i pågående forløp som har diagnoser fastsatt med ICD-10-koder, og hvordan kodingen skal håndteres ved overgang til ICD-11.

## KODEVERKTØY OG STØTTE TIL KODING

Beskriver ulike alternativer for verktøystøtte knyttet til registrering av ICD-11 diagnosekoder

## LAGRING OG DATAUTVEKSLING

Beskriver alternativer for hvordan leverandørene lagrer og utveksler diagnosekoder.

# Kartlegging av konsekvenser – eksempler

## Helsefaglige konsekvenser

- Avklare behov for medisinskfaglige (retningslinjer, veiledere, håndbøker etc.)
- Behov for opplæring
- Mulige helsefaglige konsekvenser av en stegvis oppgradering

## Organisatoriske konsekvenser

- Kartlegge arbeidsprosesser (rutine, forløp etc.)
- Kartlegge verdikjeder (rapportering, analyse etc.)
- Kartlegge behov for mappinger og konverteringer
- Mulige organisatoriske konsekvenser av en stegvis oppgradering

# Kartlegging av konsekvenser – eksempler

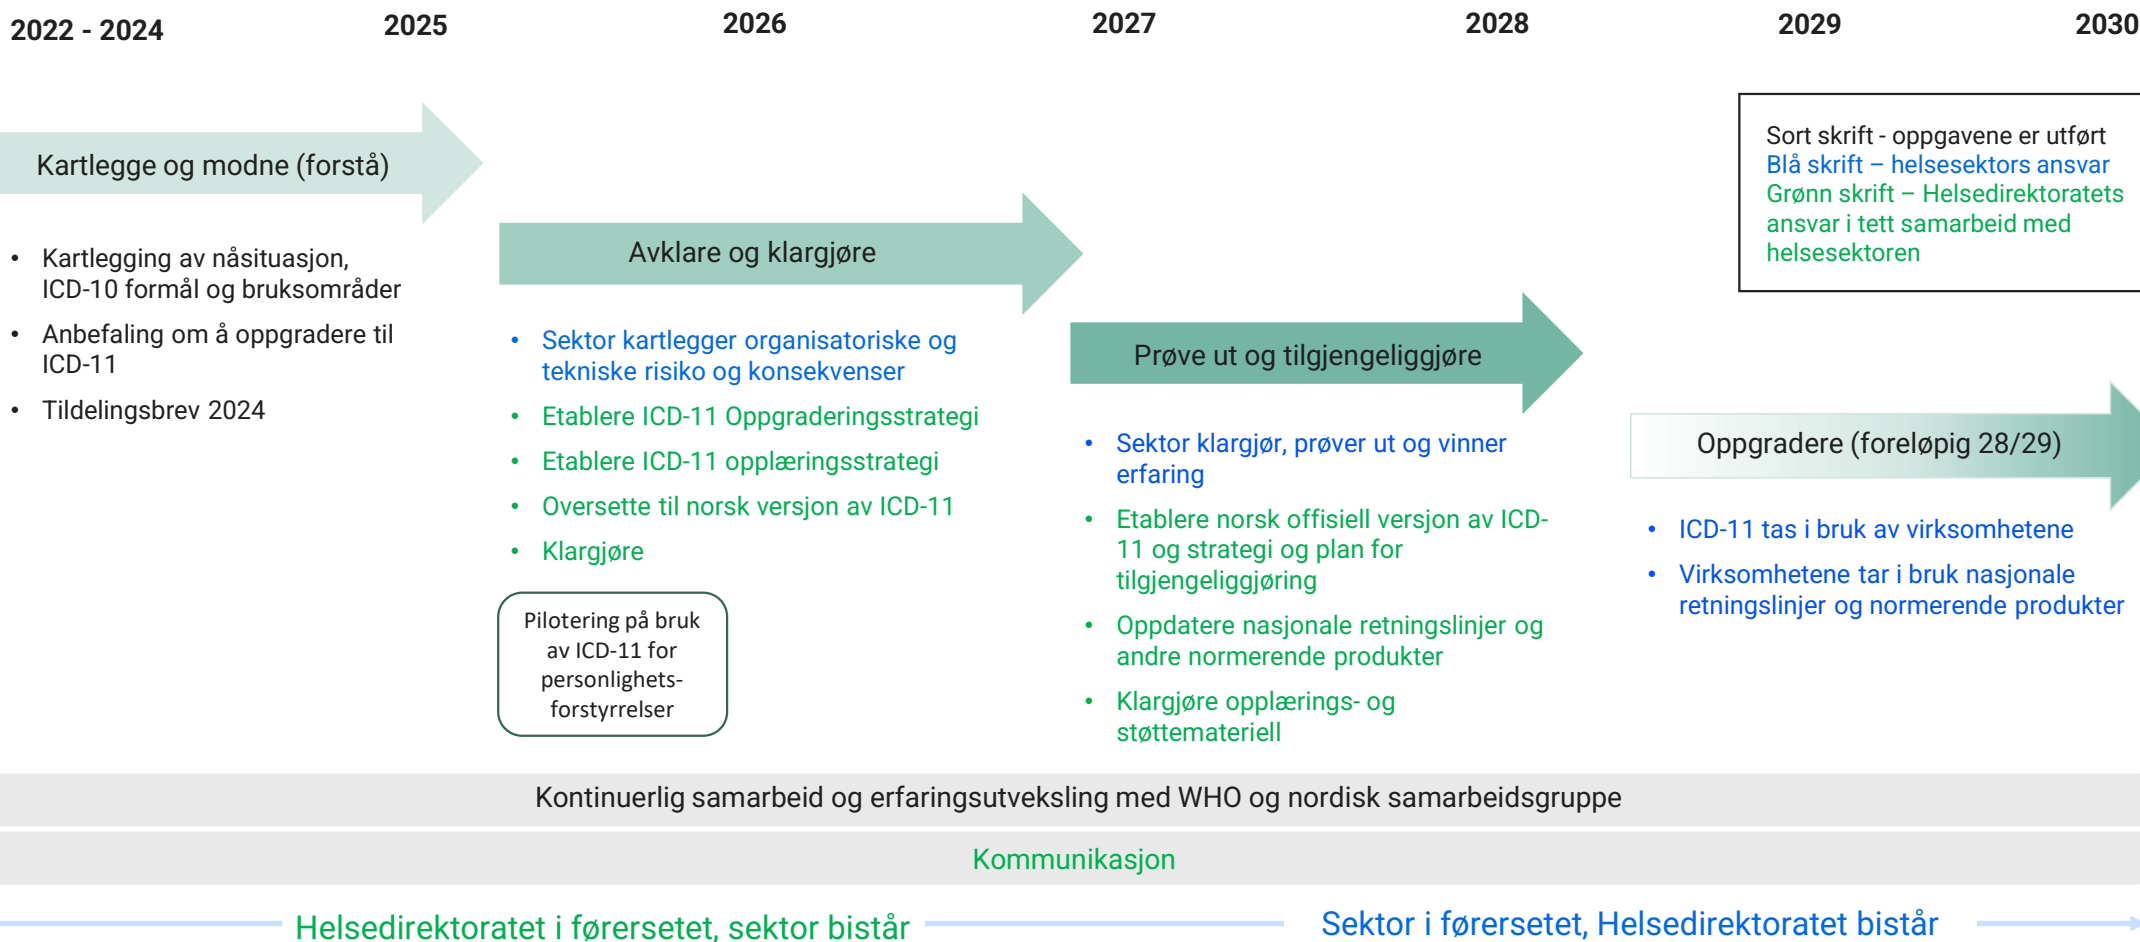

## Tekniske konsekvenser

- Kartlegge berørte systemer (EPJ+)
- Kartlegge behov for tilpasninger
- Konsekvenser av å lagre ICD-11-koder, inkludert URI
- Mulige tekniske konsekvenser av en stegvis oppgradering

## Ressursbruk ved oppgraderingen

- Forbundet med å tilpasse eksisterende IKT-løsninger (inkludert utvikle og teste)
- Forbundet med opplæring av helsepersonell og annet personell
- Forbundet med ressursbruk forbundet med å oppdatere rutiner, retningslinjer etc.
- Forbundet med ressursbruk i overgangsfasen (for eksempel forbundet med prosjektledelse, støttefunksjoner, kvalitetssikring etc.)
- Forventet ressursbruk for å legge til rette for mapper og konverteringer

# Revidert foreløpig tidsplan

## Tidslinjer i Norden

Land	År	Kommentar
Danmark	Ikke bestemt	Flere foranalyser, startet oversettelse
Island	2028/29?	Startet oversettelse, fokus på psykisk helse
Finland	2028	Pågående prosjekt, overgang i 2029, ICD-11 fra 2030
Norge	2028/29	Pågående prosjekt HDIR + prosjekt i FHI
Sverige	2026	Oversatt i offisiell svensk 2026 versjon Dødsårsaker rapporteres fra 2027 Planlegger sykdomsrapportering til registre

**Takk for  
oppmerksomheten**
